Dept. of Environmental Protection

The Authority is mandated to have a public notification system in place should there be a water problem, such as, boil water, line break, etc. As we have a time frame to notify all water users, we need a quick way to do this. The Authority has contracted with Swiftreach Networks for a direct delivery system by phone.

Currently, all published phone numbers are being inputted but some are unavailable. Please if you use a cell phone or your phone is unlisted, call the Borough Office (899-6323) and leave your name, address and phone number.
